Education

Lovely Professional University — 2022 – 2026
Bachelor of Technology in Computer Science (CGPA: 8.04 / 10) — *Phagwara, Punjab*

Ben-Hur Public School — 2021 – 2022
CBSE: 90.4% — *Pilibhit, Uttar Pradesh*

Relevant Coursework

- Data Structures
- Algorithms Analysis
- DevOps Fundamentals
- Full Stack Development
- OOPS Fundamental
- Operating System

Experience

Software Development Intern — June 2024 – July 2024
Shyftlabs Remote — *Gurugram, Haryana*

- Engineered solutions within Fluenco's backend systems tailored specifically towards optimizing influencer operations; personally resolved over 100 coding challenges during this internship period contributing directly to better functionality.
- Enhanced the user interface of Fluenco by implementing intuitive design elements, resulting in a 30% increase in user engagement and contributing to improved task management for influencers.

Projects

Cracki | *Angular, NodeJs, MongoDB* — February 2024

- Built a unique platform focused on promoting mental well-being by offering a pet-exclusive social network, addressing concerns over toxic content found on traditional social media platforms.
- Developed an authentication-secure environment that attracted 30+ users on the first day of launch.
- Revamped user experience through features such as post interaction (likes, comments) and user account discovery; optimized cookie management, driving a 25% boost in active participation and satisfaction.

Business-Directory App | *React-Native, Firebase* — August 2024

- Spearheaded a user-friendly application designed to connect local buyers and sellers, achieving the capability of supporting 10,000 monthly active users while ensuring seamless transactions through intuitive navigation.
- Showcased proficiency in React-Native and Android basics, managing O-Auth with google using Clerk, leading to a 15% decrease in app crash instances.
- Integrated Android SDK components for seamless UI and cross-device performance, resulting in a 25% reduction in loading time and a 30% increase in app responsiveness

Surgical Website | *ReactJs* — December 2023

- Designed and launched a website for showing all the surgical instruments which could be bought by contacting the seller. Which aimed at serving about 400 customers.
- Utilized emailJs library for efficient emails handling through contact form which made it easy while serving almost 400 customer base.

Skills

Languages: C++, JavaScript, HTML/CSS, Python, Java
Developer Tools: VS Code, Docker, Git
Technologies/Frameworks: Linux, GitHub, ReactJs, AngularJs, NodeJs, React-Native, MongoDB

Achievements

- **1610 Rated on Leetcode** (Logical Ability, C++) — January 2025
- **Solved 250+ leetcode problems** (Consistency, Logical Ability, C++) — January 2025
- **4 stars on Hacker-Rank** (Data Structures, Cognitive Excellence, C++) — January 2025

Extracurricular

- Demonstrated exceptional public speaking skills by delivering presentations to diverse audiences, effectively conveying complex information and engaging participants in discussions.
- Gained practical experience in cloud technologies through active participation in Google Cloud Study Jams, where I collaborated with industry professionals and peers to develop cloud-based projects.
